Touch ID
Siri
Apple Pay
3.99-ounces and 5.26-inch

What's in the Box

iPhone SE
Earbuds with 3.5 mm Headphone Plug
Lightning to USB Cable
USB Power Adapter
Documentation

System Requirements

Apple ID (required for some features)
Internet access*

*Syncing with iTunes on a Mac or PC requires:
Mac OS X v10.9 or later
PC: Windows 7 or later
iTunes 12.3 or later (free download from www.itunes.com/download)

Environmental Requirements

Operating ambient temperature: 32° to 95° F (0° to 35° C); Non-operating temperature: -4° to 113° F (-20° to 45° C); Relative humidity: 5% to 95% (non-condensing); Operating altitude: tested up to 10,000 feet (3,000 m)

iPhone SE is designed within the following features to reduce environmental impact:

Arsenic-free display glass
Mercury-free LED-backlit display
Brominated flame retardant free
PVC-free
Beryllium-free
Recyclable aluminum enclosure

Features

Design. A beloved design. Now with room to love.

iPhone SE takes an incredibly powerful design and refines it even further. Crafted from based aluminum. Durable glass. Strong and water resistant. Perfectly proportioned to fit your life. Now available in a beautiful new Rose Gold finish.

Technology. The most powerful 4-inch phone ever.

At the core of iPhone SE is the A9 chip, the same advanced chip that's in iPhone 6s. With 64-bit desktop-class architecture, it delivers faster app performance, console-quality graphics, and all-day battery life. The M9 motion coprocessor is built in, so you can effortlessly track your steps and distance. It also makes it easy to activate Siri, even when your hands are busy. Just say "Hey Siri" without having to lock or press your iPhone.

All-Day. Super-long battery life.

With 13 hours of talk time, you can talk for hours on end and movement. Simply touch and hold anywhere on your 12-megapixel iSight camera, and recording — brilliant 4K video, which is up to four times the resolution of 1080p HD video.

FaceTime HD camera. Say hello to your new favorite selfie.

The Retina display isn't just a place to see your content — it's a flash for your FaceTime HD camera. That means you look great in photos, even when you're in the dark. And with Live Photos, you can relive the moments before you take a great shot or a funny one. Touch the screen, and the iSight camera records 1.5 seconds of video and sound before and after you take the photo. Then you can add effects to bring it to life.

iCloud Photo Library. All your photos and videos, always with you.

iCloud Photo Library stores every photo and video you take and keeps them up to date in all your devices, so the photos you see are automatically updated everywhere, and you can view a photo you took on your iPhone SE on your Mac or PC.

Touch ID. Advanced security. Right at your fingertip.

Touch ID is the fingerprint sensor that lets you unlock your iPhone SE and authorize purchases with a touch. Your fingerprint data is encrypted and stored safely in your device — Apple Pay is a safer, more private way to pay.

Wireless. Faster. And more reliable.

Browse the web, download apps and games, stream video even 802.11ac Wi-Fi and LTE. Use Bluetooth 4.2 to connect to your car and listen to music. Or share your favorite photos instantly. Voice over LTE and Wi-Fi calling let you talk and text without using your cellular minutes.

Apple Pay. An easier, more secure way to pay.

Touch ID isn't just for unlocking your phone. It's also how you authorize Apple Pay purchases in apps, on the web, and in stores. Just hold your finger on Touch ID and your default credit or debit card is charged. Your card info is never stored on your device or shared with merchants — a user should not have to decline — Apple Pay is a safer, more private way to pay.

iOS 9. Your iPhone. Even smarter.

Browse the web, download apps and games, even 802.11ac Wi-Fi and LTE. Use Bluetooth 4.2 to connect to your car and listen to music. Or share your favorite photos instantly. Voice over LTE and Wi-Fi calling let you talk and text without using your cellular minutes.

iOS. It's why there's nothing else like an iPhone.

With an easy-to-use interface, powerful technologies, and security at its core, iOS is the most advanced mobile operating system and the foundation of iPhone SE. It's designed to look great and work even better, so you can do more and have more fun than ever before.

Apps that help you do more every day

Your iPhone comes with a collection of apps designed to get the most out of life. Messages lets you share photos, videos, links, and more. Maps helps you get where you're going. Safari lets you browse the web. Music lets you discover, stream, or download millions of songs. And Siri is always on standby, ready to help you with anything from dictation with spoken turn-by-turn navigation, text-to-traffic updates, and a Helpful Tweet view.

Siri. Your wish is its command.

Siri is your personal assistant that helps you do more just by using your voice. Ask Siri to get directions or make reservations, and more. You can even ask Siri to search your photos library to find just the photos or video you're looking for.

Tech Specs

Capacity

32GB

128GB*

Processor

A9 chip with 64-bit architecture

Embedded M9 motion coprocessor

Display
